Brand protection

We manage all aspects of our clients' brand protection strategy, from the pre-registration clearance of a trademark, to its filing and prosecution, to domain name registration, to trademark portfolio management.

IP litigation

We assist our clients in IP rights infringement cases, invalidity actions before national IP courts and IP offices, counterfeit actions, UDRP proceedings on domain names and illegal websites.

Legal advisory on IP matters

We regularly advise clients in respect of all out of court issues concerning intellectual property, including drafting and negotiations of IP related contracts, such as licensing agreements, technology transfer and research contracts, distribution and franchising contracts. We regularly provide assistance in connection with M&A related IP issues.

IP training

We impart easy to follow and comprehensive training schemes for a company's personnel to acquire the required minimum level of knowledge of IP laws, for them to be ready in their day-to-day management of IP related issues.

A person is silhouetted against a vast, starry night sky. The person is standing on a rocky outcrop and holding a flashlight that is turned on, casting a bright beam of light across the sky. The beam of light illuminates the Milky Way galaxy, which is visible as a dense band of stars and dust stretching across the upper right portion of the image. The overall scene is dark and atmospheric, with the stars appearing as numerous small white dots against the deep blue and black background of the night sky. The person's silhouette is dark and detailed, showing their head, shoulders, and legs. The rocky terrain they are standing on is also silhouetted against the sky.
